Facility: Saint Peter's Church, often referred to as the "Jazz Church," is an extremely popular venue for classical music concerts as well as for jazz. **The Sanctuary**, a real surprise for those not familiar with the space, boasts 80-foot skylighted ceilings, granite floors and red oak furniture, creating a beautiful, natural acoustic throughout the space. A 32-stop tracker-action Klais pipe organ and a Baldwin grand piano are available for use, in addition to a bass amp, a guitar amp and a set of Pearl drums. State-of-the-art sound enhancement, video projection, and archival recording equipment is built in. The Sanctuary seats approximately 300, but with the possibility of additional chairs and overflow in the Living Room, the total capacity is 550. If not used for overflow, the **Living Room** is ideally suited as a reception hall (complete with warming pantry) or a more intimate performance area for recitals/cabaret, seating about 150. Billy Strayhorn's Steinway (recently rebuilt) is there, together with sound enhancement and projection equipment. The Living Room also doubles as an art gallery with exhibitions changing every six weeks. All spaces are ADA compliant.
